

THE
NEW ORLEANS

STEAMCÖG ORCHESTRA

Finally, a Ragtime ~ Dixieland band with a difference: **FUN!** The New Orleans Steamcog Orchestra takes the sounds of old New Orleans out of the museum and onto the dance floor, leading audiences on a steam-powered joyride back in time. Male & female singers mix with trumpet, trombone, bass, xylophone, piano, clarinet and banjo. With the steady beat provided by 'COGSWORTHY', our amazing clockwork drummer, we provide an instant *'turn of the century'* party for any occasion.

“This is New Orleans steampunk trad jazz at its best, and also hysterically funny” – WWOZ FM

Propelled into the present from the bygone steam-era of 1912, we of the New Orleans Steamcog Orchestra have made it our mission to reintroduce the sounds of Ragtime and Dixieland to audiences everywhere. Led by ‘thousandaire’ inventor Professor Milo R. Pinkerton and his granddaughter Formelda Hyde-Pinkerton, we travel worldwide via our fabulous airship, spreading our own original music & classic favorites to the four corners of the earth!
