

New Orleans Steamcog Orchestra 2023 stage plot

Contact: Lewis D'Aubin - (504) 208-8757 - ldaubin@bellsouth.net / drpinkerton@consortiumofgenius.com

New Orleans Steamcog Orchestra – 2023 Production Rider

Personnel:

Lewis D'Aubin (vocals/melodica)
Tiffany Pollack (vocals)
Jim Fairchild (xylophone)
Dan Meyer (trumpet)

Owen Pascual (bass)
Ben Caston (piano)
Beth Patterson (bouzouki/oboe)
Marc Linam (clarinet)
Froggy (trombone)

For vocals, we use our own mics and custom preamps. XLR outputs from these preamps are available.

The drums in this band are played by machine and are miked as a standard jazz drum kit. The drums consist of a bass drum, snare drum, tom toms, ride cymbal, wood block and crash cymbals. And XLR D.I. output from the bass drum is also available.

We prefer to use an upright piano if one is available. If one is not available, we use a digital piano with an XLR direct output.

The acoustic instruments are mic'd conventionally.

The machine-operated drummer and vocalist preamps (center stage) require 110VAC at 4amps. The pianist requires AC power if using the digital piano, and the banjo player requires AC power for his amp.

That's pretty much it! Please let me know if you need any further info.
